

COURSE ANNOUNCEMENT

Identifying, Analyzing, and Managing Project Risk

 5-DAY VIRTUAL COURSE

COURSE DESCRIPTION

Risk cannot be avoided. So, the best way to manage an unavoidable situation is to plan for and identify the potential obstacles and possible solutions. This class revolves around the advanced practices for identifying, communicating, managing, and controlling project risks. This class is very interactive and includes discussions, hands-on exercises, scenarios, and case studies.

WHAT YOU WILL LEARN

Risk Management Overview

- Project risk management definition
- Role of risk management in project management
- Critical success factors to effective risk management

Plan Risk Management

- Barriers to successful project risk management
- Stakeholders and risk management
- Planning sessions and documentation

Identify Risks

- Early identification
- Comprehensive identification
- Multiple perspectives
- Risk register

Qualitative Risk Analysis

- How to develop an agreed-upon approach
- How to collect risk information
- How to prioritize risks

	US Virgin Islands	August 7 - 11, 2022	8:00 p.m. - 11:00 p.m.

 **INSTRUCTOR**

Clarissa J. Corbin,

MCCT, MOS, MCTS, MCT, ITIL, CSM, PMP

Clarissa has been teaching for over 25 years. She uses a wide variety of teaching strategies to motivate and help her students learn. She began her career in elementary education. She progressed to university instruction, where she taught at Columbus State University and Boston University, working directly with professional adults to improve their technology, project management, and business skills. She has continued her teaching in private business training clients worldwide as the President & CEO of Projections Consulting, Inc. Her motto is "she can't teach a person who's sleep." So, her job is to make learning fun, interesting, and worthwhile.

Clarissa went on to work as Director of Training for a regional company and then began combining her leadership and teaching experience with curriculum development, business analysis, and project management. While working with companies having diverse clients like Microsoft, Citibank, PNC Bank, Perot Systems, Synovus Trust, First Data Corporation, Abercrombie & Fitch, Symantec, and a host of governmental agencies, she successfully instructed and managed projects promulgating these emerging technologies, process improvements, leadership, management development, and IT service management strategies worldwide. She also authored and co-authored training manuals used nationally for these new technologies.

Clarissa served as Director of Boston University's TrainingTrack Project Management Programs for three years. She is the current owner and CEO of Projections Consulting, Inc., headquartered in Williamsburg, Virginia. Clarissa has been and remains a catalyst for new project management, service management, business analysis, management, and education initiatives.

Clarissa holds many technology and business certifications. She is certified as a project management professional (PMP) through the Project Management Institute (PMI), Information Technology Infrastructure Library (ITILv3) through Examination Institute for Information Science in the Netherlands (EXIN), and a Microsoft Certified Trainer (MCT) amongst others. She has spoken to many PMI chapters across the country and worldwide. She has personally interviewed and evaluated hundreds of experienced instructor candidates vying for placement in Boston University's vanguard project management program. Her leadership, project management, service management, and business analysis collaborations include work with project managers, instructors, PMI chapters, and businesses in the United States, Singapore, Trinidad & Tobago, Jamaica, China, Japan, and South Korea, Hawaii, and Canada.
